

This Might Be Your Final Christmas (parody of "We Wish you a Merry Christmas")

This might be your final Christmas
This might be your final Christmas
This might be your final Christmas
The Judgment's Day's near

You'll soon meet the King
The time is at hand
He's coming from heaven
To punish this land

He's not gonna have fag marriage
He's not gonna have fag marriage
He's not gonna have fag marriage
This nation is doomed

You Christians have lied
Divorced all your wives
Now your proud adultery
Will cost you your lives

God hates all your stinky idols
God hates all your stinky idols
God hates all your stinky idols
Your doom is at hand

You worship your flag
Your bloody red wrap
It's your favorite idol
God hates you for that

This might be your final Christmas
This might be your final Christmas
This might be your final Christmas
The Judgment's Day's near

All the nations are playing
The fag marriage game
Christ will destroy you
The whole world's in flames
