

God Saved His Best Wrath For Last (Parody of Vanessa Williams' "Save The Best For Last")

**God's day of wrath is coming soon
The day the sun won't light the moon
God saw the lust that filled your lives
We told you truth--don't act surprised
Cuz there is a time when rebels all will wish They'd not lied 'bout God's love
When Christ come back in flaming fire as planned His glory--it's enough**

**With God you're standing face to face
His Throne and judges all in place
Just when you think His wrath has passed
God saved his best -- wrath -- for last**

**All of the nights are gone--you see
From your silly talk His saints are free
We wondered when your time was through
We wondered what was wrong with you
Cuz how could you give your life for your proud sin For all the world to see
Your pride--the very thing you're fighting for Is your doom - eternally**

**With God you're standing face to face
His Throne and judges all in place
Just when you think His wrath has passed
God saved his best - wrath - for last**

(interlude--la, la, la)

Your pride--the very thing you're fighting for Is your doom - eternally

**God's day of wrath is coming soon
The day the sun won't light the moon
Just when you think His wrath has passed God saved his best - wrath - for last**

God went and saved His best for last
