

LANDSLIDE (Parody of "Landslide" by  
Fleetwood Mac)

You took God's love and turned it 'round  
Exalting sin, God will strike you down  
And we saw fag marriage inside all your  
churches  
Then the landslide brought you down

Oh, God's wrath in the sky  
That's not love  
Teach your children that their thoughts should  
be of God  
God's laws won't change, like the ocean tides  
Your duty is obedience, all your life  
Oh-ohhhh (repeat...)

Well, you won't think of changing, 'cause you  
built your life around sin  
Your sin is getting bolder  
God's killing your soldiers  
Hope's getting colder too  
Well ...

[Musical interlude]

Well, you won't think of changing, 'cause you  
built your life around sin  
Your sin is getting bolder  
God's killing your soldiers  
Hope's getting colder too  
Yes, hope's getting colder too

Oh, you grind God's love into the ground  
Crying to the mountains, turn God's wrath  
around  
And we saw fag marriage inside all your  
churches  
And the landslide brought you down  
Yeah, we saw fag marriage inside all your  
churches  
Fag marriage  
Fag marriage  
Fag marriage, God's wrath will bring you down
